Shilpi *Sharma*

Interior Designer

ABOUT

Designing rooms the way people *actually live in them.*

I'm in the final semester of a Master of Vocation (M.Voc / MBA-equivalent) in Interior Design at Mangalayatan University, graduating in two months.

My process starts on paper — I still prefer manual drafting for residential and commercial layouts — and moves through CAD documentation, 3D modelling in SketchUp and 3ds Max, and photoreal rendering in V-Ray. I care most about material palettes, proportion, and how a space is lit.

UNTIL GRADUATION

04 RESIDENTIAL & COMMERCIAL

Featured Renders.

RESIDENTIAL · MASTER BEDROOM

The Fluted Retreat

A calming master suite built around a tailored linen headboard, warm teak fluting, and soft globe lighting. The vertical fluting visually raises the ceiling in a compact floor plate, while three layers of light (downlights, chandelier, bedside orbs) give the room an intimate hotel quality.

SKETCHUP · V-RAY · AUTOCAD

RESIDENTIAL · BATHROOM

Warm Stone Bathroom

A small guest bathroom designed to feel like a private spa. Terrazzo accent walls pair with a walnut-veneer vanity and a charcoal walk-in shower; warm dimmable downlights hold the whole palette together.

SKETCHUP · V-RAY

COMMERCIAL · CAFÉ

Chi Tha Visto — Café Concept

A 25-seat neighbourhood café anchored by arched floor-to-ceiling glazing and a perforated brass-tone screen wall. Low lounge seating and two-tops are arranged around a signage moment in a deep navy, warm-wood palette.

REVIT · SKETCHUP · V-RAY

RESIDENTIAL · LIVING ROOM

Classical Living Room

A formal living room built on symmetry and restraint — wall-mounted moulding rectangles behind a neutral sofa, a four-frame gallery, and a brass Sputnik chandelier against deep-teal walls. Modelled in 3ds Max and rendered in V-Ray.

EXPERIENCE & EDUCATION

Where I've been.

- **2024 — 2026 · FINAL SEMESTER**

M.Voc in Interior Design (MBA-equivalent)

Mangalayatan University

Two-year postgraduate programme covering space planning, technical drawing, 3D modelling, materials, services (plumbing & electrical layouts), and project management. Graduating in June 2026.

- **ACADEMIC STUDIO PROJECTS**

Residential & Commercial Design Studio

Coursework & Independent Briefs

Delivered full sets of residential interiors (bedrooms, kitchens, living rooms, bathrooms) and commercial projects (café, showroom, hospital, shopping centre) — from layout and elevation through 3D modelling and V-Ray render.

- **LOOKING FORWARD · 2026**

Open to Full-Time Roles

Interior Design Studios · Architecture Firms

Seeking a junior interior designer or 3D visualiser role where I can contribute to residential and commercial projects while continuing to grow in 3ds Max, V-Ray, and Revit.
