Hindi

Curriculum Vitae · 2026

## Profile

Detail-oriented interior designer about to complete an MBA/M.Voc in Interior Design. I design residential and commercial interiors that balance function, comfort and a distinct sense of material. Comfortable from the first hand sketch through to photoreal rendering and client-ready walkthroughs.

## Education

**MBA / M.Voc in Interior Design** *Final Semester · 2026*  
Mangalayatan University  
Graduating in ~2 months. Focus on residential and commercial interior design, visualisation, and construction documentation.

**Diploma in Interior Design** *Completed*  
(certificate on file)  
Foundation training in drafting, 3D modelling, rendering and material science.

## Selected Projects

**The Fluted Retreat — Master Bedroom** *Residential · 3ds Max + V-Ray*  
A warm modern master suite with fluted panelling, integrated lighting and a moody, layered material palette.

**Modern Modular Kitchen** *Residential · SketchUp + V-Ray*  
Full modular kitchen design with optimised workflow, two-tone cabinetry and an integrated breakfast counter.

**Retail Showroom Concept** *Commercial · 3ds Max + V-Ray*  
Showroom layout with false-ceiling scheme, feature lighting plan and electric detailing — designed to highlight product display.

**Hospital — Multi-floor Layout** *Healthcare · AutoCAD*  
Floor plans, zoning and electrical symbol layouts for a multi-floor hospital with attention to circulation and safety compliance.

**Residential Exterior & Full House** *Architecture · SketchUp + V-Ray*  
Complete house design: plans, elevations, stairwells and exterior rendering across multiple floors.
